

EDUCATE 360 INTRODUCES

Rapid Improvement Exercise (Kaizen)

Unlock Fast, Sustainable Gains in Performance and Productivity

Our Rapid Improvement Exercise, based on Kaizen principles, delivers immediate, measurable impact. Through focused, expertly facilitated workshops, we help organizations solve real business problems, accelerate improvements, and build internal capability for ongoing success.

Why This Matters

Organizations are under constant pressure to do more with less. Yet studies show:

- 20-30% of resources are wasted on non-value-adding activities.¹
- 70% of improvement initiatives fail due to poor execution and lack of follow-through.¹

We empower your people while delivering immediate results.

How We Help

Our approach combines expert facilitation with hands-on problem-solving:

- ✓ 3–5-day intensive workshops designed around your organization's specific challenges independently.
- ✓ Knowledge transfer and coaching so your teams can independently facilitate future Rapid Improvement Exercises

We empower your people while delivering immediate results.

What's Included?

Each Rapid Improvement Exercise engagement provides:

-  **Pre-event planning and problem definition** to ensure a laser focus on priority issues
-  **Data collection, baseline measurement, and root cause analysis** to establish a strong foundation for improvement
-  **Expert workshop facilitation** to drive collaboration, creativity, and commitment across your team

Post-exercise, we offer follow-up reviews at 3 and 6 months to support long-term sustainability.

Why Educate 360?

Choosing the right partner can be the difference between short-term wins and lasting transformation. Here's why leading organizations choose Educate 360 for their Rapid Improvement initiatives:

- **Skills Transfer First:** We don't just facilitate improvement, we teach your teams how to sustain it. Our workshops are designed to equip your employees with the tools and confidence to drive future improvements independently.
- **People-Focused Approach:** True change starts with people. We balance powerful Lean Six Sigma methodologies with a strong emphasis on team engagement, ownership, and communication, ensuring improvements are adopted and sustained.
- **Clarity Over Complexity:** Process improvement shouldn't feel overwhelming. We simplify complex Lean Six Sigma concepts into practical, accessible strategies that every team member can understand and apply, from the shop floor to the C-suite.

- **Credentialed Expertise:** All our facilitators are certified Black Belts, ensuring your teams are learning from experts who live and breathe operational excellence.
- **Diverse Industry Experience:** Our consultants bring a wealth of real-world experience across industries including manufacturing, healthcare, financial services, and technology, enabling solutions that are tailored, not templated.
- **Premier Certification Partner:** As an authorized training organization recognized by the **Council for Six Sigma Certification (CSSC)**, we offer full-spectrum Lean Six Sigma training, from White Belt fundamentals to Master Black Belt leadership, providing a clear development path for your organization's continuous improvement journey.
- **Diverse Industry Experience:** Our consultants bring a wealth of real-world experience across industries including manufacturing, healthcare, financial services, and technology, enabling solutions that are tailored, not templated.
- **Sustained Support:** Improvement isn't a one-time event. Our built-in three- and six-month follow-up reviews help track progress, reinforce best practices, and ensure that improvements take root and deliver long-term impact.

With Educate 360, you're not just solving a problem, you're building a culture of continuous improvement that will drive competitive advantage for years to come.
